

File

21 January 1948

NOTE TO: 34.0

Paul HOROSHY, Alias STROBL

1. This office was approached by another US agency, asking us if we are interested to employ subject.
2. Subject was his officer in charge of the Eastern Desk of the Hungarian Gendarmerie.
3. He claims that he still has informants in important Hungarian government positions.
4. This man was described to us as a most reliable person who is known to a few US officers since May 1947.
5. At present, he is residing as a DP in TRIER under a different name. He was approached by the French and British intelligence service, but he refused to work for them. He is working with the group of Hungarian emigrants. His wife and two daughters are still in Hungary, but he would like to get them out by his own means, if we can promise their support when here.
6. Subject will be in MUNICH on 27 January 1948, and it is recommended by 23 that a very good representative of our organization should contact him and get from him his plans, personnel, and proposals which he will have ready on 27 January 1948.
7. 23.0 will receive the details for the meeting on Monday, 26 January 1948.
